

Laboratory Exercise #3

Exception Handling

Name/s: *Eger L. Mirasol*

Section: *BSCPE 1-5*

Date: *March 20, 2025*

Instructions:

Go back to your source codes for Lab Exercises #1 and #2. Improve your program by adding exception handling. Identify areas of the code where exceptions will likely to occur (e.g. a user entering an invalid date, assigning unexpected values, division by zero, missing files, etc.)
