Laboratory Exercise #6

Encapsulation

Name/s: *Eger L. Mirasol*

Section: *BSCPE 1-5*

Date: *April 04, 2025*

Instructions:

Download the lab6_encapsulation.py and implement encapsulation to all data members of the BankAccount and Bank classes to make this simple bank system more secured and safer.

1. Convert all attributes that holds sensitive information to private
2. Apply getter and setter public functions
3. Use property class or property decorator
